

New bus for Kindergarten playground

The bus in the playground of the Dimboola kindergarten that has provided entertainment for generations of pre-schoolers has recently been replaced by a new one built by students from the Dimboola Memorial Secondary College. The 'Hands On Learning' students presented the new playground equipment to the children and staff at the Dimboola Kindergarten last Wednesday morning. The students built the new bus after

drawing their own pattern from the old one, with the project undertaken over a one month period with work carried out one day per week. The students and staff who worked on the project presented the bus to an excited group of kindergarten students in front of parents and staff. Appreciation certificates were presented by kindergarten student Eleanor to the students and staff involved in the project

Pictured above are Kindergarten students Brodie, Jax, Tyler, Edward and Eleanor checking out the bus whilst Donna Baldock, Kolby Barry, Zeke Ough, Hamish Sellens, Jack Kalms, Emma Baker, Brandon Morrison, Koby Bamford, Justin Chilver and Jake Anders look on holding their appreciation certificates.
